V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-3, 5-7, 10-14	YES
	Claims		NO
Inventive step (IS)	Claims	1-3, 5-7, 10-14	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-3, 5-7, 10-14	YES
	Claims		NO

2. Citations and explanations

The documents cited in the ISR do not describe the positional relationship between the center position of the coil's longitudinal direction and the maximum diameter of the light-emitting tube, and do not discuss setting the diameter of the part positioned at the side opposite the opening of the recessed part to be larger than the diameter of the part positioned at the rough center in the longitudinal direction.

Therefore the novelty and inventive step of the invention of claims 1-3, 5-7, and 10-14 cannot be denied solely based on the documents cited in the ISR.
